BMW SKILL NEXT INITIATIVE

BMW India has announced a new technical skills initiative, Skill Next that aims to give mechanical engineering students a chance to work on the engine and transmission of BMW India's cars.

APSIT has setup Twin Power Turbo, Inline 4 cylinder diesel engine, eight-speed Steptronic, automatic transmission units under Skill next Initiative in collaboration with BMW India.

APSIT had successfully received the engine and transmission unit on 24th August, 2018 from BMW India Pvt Ltd, Kancheepuram district of Tamil Nadu.

Very soon, the students will get hands on training session by BMW India under Skill next Initiative.

Objectives:-

- To bridge the gap between academic and industrial requirements by acquiring current and future technical skills.
- To apply the technical skills for real life problems in automobile sectors.
- To establish relationship between auto industry and institute for training and placement activities.

Outcomes:-

Students will be able

- To acquire recent and latest trends in automobile engineering.
- To get placed in various domains of automobile sector.
