

Foreign Language Courses

It is very rare to see a program combining language & engineering. In fact, such engineering collaborations are particularly important in light of the global scenario. In the global economy, one of the most valuable traits an employee can possess is the ability to speak a second or multiple languages

Engineers are passionate about working for international companies. As companies broaden their reach across continents and service a diverse population, demand for candidates who will immerse themselves in other cultures is crucial. Foreign language fluency will give you the opportunity to showcase yourself as a global employee, which can be filled with exciting, fulfilling and lucrative professional opportunities.

We at APSIT are offering the crucial Foreign Languages as French, German, Japanese, Mandarin, and Spanish. The course is meant for International Examinations; where in students are trained systematically. The course material used is appropriate and the course is taught using all advanced techniques like Audio-Visual clips, Group Interactions, Games etc.

Success Stories

Students who have Successfully completed Level N4 & N5 Japanese Language proficiency.
