The Department of Civil Engineering organized VAP for the Final Year students on “Analysis and Design of Concrete and Steel Structure using STAAD.Pro”. The training programme was attended by 17 Nos. of Civil Engg. Department.

Date: 25th June 2018- 27th June 2018.

Time: 10:00 a.m - 03:00 p.m

Venue: Lab 408 , APSIT

Participants: 17 students.

Trainer :

Prof.Preeti Kalburgi.

Prof.Umesh Vazurkar.

Prof.Vishal Misal.

Resource Person : Prof.Raksha S.Khandare.

Organized by: Department of Civil Engineering, APSIT.

The VAP made students aware about analysis of structural members for different load conditions,supports and material properties. The validation of results was carried out. The session ended with feedback from students and group photograph. Few photographs are attached to get a glimpse of the event
