

Department of Information Technology

STTP on AWS Cloud Foundations

Our Department of Information Technology organised a STTP for students on AWS Cloud Foundations from 12/03/2021 to 14/03/2021. This STTP was organised under the guidance of HOD IT Prof. Kiran Deshpande. The Hands-on session was taken by Prof. Nahid Kausar Shaikh faculty of IT department of APSIT.

AWS Academy Cloud Foundations is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support.

AWS Academy provides higher education institutions with free, ready-to-teach cloud computing curriculum developed and maintained by AWS. With professional development opportunities and courses aligned to AWS Certifications, AWS Academy empowers educators to deliver hands-on learning experiences that prepare student for industry-recognized certifications and in-demand cloud jobs. The AWS Academy curriculum is designed to help students develop technical expertise in cloud computing and help them prepare for AWS Certification.

The session was overall informative and motivational for 74 students of TEIT. Proceeding towards the end, Online Test was conducted based on contents of STTP and Feedback for same also collected from students about speakers and overall contents of STTP.
