Webinar Topic: - Linux Automation with Ansible (RH294)

Name of College: - A. P Shah Institute of Technology, Kasarvadavali,
Ghodbunder Road, Thane (Maharashtra)

Department: - Information Technology

Date: - 13/08/2021

Participants: - 150

Targeted Audience: Students of TE & BE Information Technology

Speaker: - Rajat Agrawal
Training Consultant | Instructor | Examiner, Red Hat

Faculty Accompanied: -
1) Prof. Kiran Deshpande
2) Prof. Neha Deshmukh

Aim of webinar: -

Webinar on Red Hat Enterprise Linux Automation with Ansible helped students in understanding skills needed to manage large numbers of systems and applications efficiently and consistently. Students were briefed about the techniques needed to use Ansible to automate provisioning, configuration, application deployment, and orchestration.

Webinar has also helped students in knowing wide carrier options available after expertise such as Linux system administrators, DevOps engineers, infrastructure automation engineers, and systems design engineers who are responsible for
Automating configuration management, Ensuring consistent and repeatable application deployment,
Provisioning and deployment of development, testing, and production servers,
Integrating with DevOps continuous integration/continuous delivery workflows.

Is can we pentest aws amazon server
shilpagya shrivas 29 mins ago
is aws/2.0 may grant me to dig deeper in the network
shilpagya shrivas 26 mins ago
after getting some vunerability in website
shilpagya shrivas 26 mins ago
can we penetrate this type of hosts ec2-18-136-116-52.ap-southeast-1.compute.amazonaws.com
Pranav Karelia 10 mins ago
Is ansible worth learning for starting a career in ethical hacking (fresher level)? How much will it help since ansible focuses on automation.
Dr. Vimmi Pandey 3 mins ago
sir what would be the duration of training of ansible?
