**AUDIENC
E** Third Year Students pursuing Civil Engineering (AY 2021-22)
DLOC-Introduction to Offshore Engineering

**ORGANISED
BY** Organized by **the Department of Civil Engineering** under
a continuous teaching-learning process.

EXPERT SPEAKER Dr.Ajaykumar R.Kambekar
Sardar Patel College of Engineering.

**TOTAL STUDENTS
ATTENDED** 22

The expert lecture was organized for the third Year DLOC students(AY 2021-22) of APSIT. To prepare industry-ready students, it becomes important to make students aware of applications in the field. The expert's lectures allow students to communicate with industry experts and explore the field of work. On this drawback, one such expert lecture was arranged to make students understand the importance and scope of Offshore Engineering.

OBJECTIVES OF EXPERT LECTURE

- 1) To Give a brief Introduction to Offshore Engineering.
- 2) To make students aware of the scope of Offshore Engineering
- 3) To make students understand the role of offshore engineers.

The topics were covered systematically and at the end of the session, the expert shared some of his fields and live examples with students. The sessions ended with a question and answer session and a vote of thanks.
