Success Story!!!!

Name of College: - A. P Shah Institute of Technology, Kasarvadavli,

Ghodbunder Road, Thane (Maharashtra)

A hackathon is an event where individuals or teams come together to collaborate, brainstorm and create innovative solutions to specific challenges in a limited amount of time. Hackscript 4.0 a national-level hackathon for students on fintech and smart cities domain focusing on developing technological solutions related to financial technology and smart cities was organized by A. P. Shah Institute of Technology Thane on 18th and 19th April 2023. There were 132 participants from various colleges. There were in total 35 teams, divided into two specific domains i.e., Smart City and Fintech. Each team consisted of 2 to 4 members. There were 23 teams of APSIT and other remaining 12 teams were from various other colleges. They were given a set of problem statements to work on, and they had 24 hours to develop innovative solutions to these problems. The event provided an excellent platform for participants to showcase their skills, network with fellow tech enthusiasts, and learn new techniques and technologies.

Our AIML Club learners actively participated in Hackscript 4.0 and our team "Pied Piper" won first prize in Fintech domain with a cash prize of Rs. 15000.

Following are the details of the winning team
