## **EVENT: PLACEMENT DIARIES 2.0**

### **ORGANISED BY:**

AIML Student Association, A.P. Shah Institute of Technology, Thane

### **DATE & TIME:**

22<sup>nd</sup> January 2025, 10:20 AM to 12:00 PM

### **VENUE:**

Room no. 405

### **TARGET AUDIENCE:**

Students from the Department of Artificial Intelligence & Machine Learning (AIML)

### **INTRODUCTION:**

The AIML Student Association of A. P. Shah Institute of Technology organized an interactive session titled "Placement Diaries 2.0". The event was designed to allow seniors to share real-world experiences, smart tips, and tricks to secure placements. Seniors successfully placed at Capgemini shared their journeys to guide juniors through the recruitment process.

### **OBJECTIVES:**

- To familiarize students with the placement policies and recruitment lifecycle
- To provide practical guidance on mastering Data Structures & Algorithms (DSA) and leveraging AI tools for learning
- To offer insights into company-specific interview processes.
- To inspire discipline and resilience among students preparing for their career.

### **EVENT FLOW:**

- The workshop began with a welcome address by the AIML Student Association, introducing the speakers Raj Nikam, Durvesh Kanade, Suraj Vishvakarma and Haniya Akhtar.
- The speakers collectively discussed effective placement preparation strategies, including the use of AI tools for learning skills, the importance of Data Structures and Algorithms (DSA), and structured problem-solving approaches. Students were guided on selecting meaningful projects that help build practical skills and avoiding the tutorial trap by focusing on implementation rather than passive learning.
- The session covered the placement process and placement policies, including application rules and timelines, along with insights into company-specific interview patterns, coding rounds, and resume-based interviews. Practical tips on confidence building, self-presentation, and discipline were shared. The event concluded with an interactive Q&A session, addressing student queries related to resumes, internships, and placements.

### **KEY HIGHLIGHTS:**

- Interaction with AIML seniors who achieved successful campus placements, sharing real-world industry insights
- Guidance on leveraging Artificial Intelligence tools for efficient learning and skill enhancement
- Conceptual clarity on Data Structures and Algorithms (DSA) with a focus on analytical problem-solving methods.
- Insightful discussion on project selection aligned with industry requirements.
- Felicitation ceremony at the end, where Mrs. Darshana Bhamre Ma'am honored the speakers for their valuable contribution

### **KEY TAKEAWAYS:**

- Early and consistent preparation in DSA is essential for placement success.
- Understanding company-specific interview patterns improves preparation efficiency.
- Discipline, consistency, and confidence are more important than short-term motivation
- Hands-on implementation is more effective than passive tutorial-based learning.
- Constructive learning from setbacks contributes to continuous personal and professional growth

### **CONCLUSION:**

The "Placement Diaries 2.0" proved to be an insightful and engaging session that successfully bridged the gap between academic preparation and industry requirements. It provided students with a clear roadmap for their placement journey.

The AIML Student Association extends heartfelt gratitude to the speakers, faculty coordinators, and volunteers for making the event a success.

*The association looks forward to organizing more such lively events in the future.*
