

EVENT: ACROSS THE WEB

ORGANISED BY:

AIML Student Association, A.P. Shah Institute of Technology, Thane

DATE and TIME:

19th August 2026
From 1:00 PM

VENUE: Room no. 405

OBJECTIVES:

The objective of ACROSS THE WEB was to introduce students to the fundamentals of modern web development and help them understand what happens behind a simple click on the web.

INTRODUCTION:

The AIML Student Association successfully organised ACROSS THE WEB on 19th August 2026. The session provided students with a beginner-friendly introduction to Frontend, Backend, APIs, HTTP, Databases, Git, GitHub, Postman, Cloud, and Agents.

EVENT FLOW:

The session covered:

- Introduction to Frontend and its building blocks.
- Understanding Backend and its responsibilities.
- Introduction to Databases and SQL vs NoSQL.
- Understanding Version Control, Git and GitHub.
- Interactive audience session conducted by Nishant Dakua.
- Understanding the anatomy of an API request.
- Practical demonstration using JSONPlaceholder.
- Overview of Postman, Cloud and Agents.

The insightful session by Nishant Dakua and Taifoor Ansari made the event interactive and informative.

KEY TAKEAWAYS:

Participants gained a basic understanding of web development concepts and how different technologies work together to build modern web applications. The session also encouraged students to explore web development and related technologies further.

CONCLUSION:

ACROSS THE WEB was an engaging and informative learning experience. The event concluded with participants sharing their feedback, providing valuable insights to the organising team. Overall, the session successfully helped students gain a better understanding of what happens behind the web.
