Session: Pre-Placement Training Program for TE IT A and TE IT C

Name Of College: A. P. Shah Institute of Technology, Kasarvadavali, Ghodbunder Road, Thane-400615

Date: 28/09/2026 to 2/10/2026

Venue: Classroom-213 and 214

Participants: Students of TE IT A and TE IT C Divisions

Faculty Accompanied:

Prof. Geetanjali Kalme

Prof. Roshna Sangle

Prof. Rujata Chaudhari

Organizers:

Department of Information Technology, APSIT.

Aim of the event:

The primary objective of the Education Aptitude Training Program was to enhance students' aptitude and analytical skills required for competitive examinations, higher education entrance tests, and placement opportunities. The training focused on strengthening quantitative aptitude, logical reasoning, and data interpretation skills, with emphasis on improving students' problem-solving ability, logical thinking, speed, accuracy, and time management. The syllabus covered important topics such as Averages, Mixtures & Alligation, Permutations & Combinations, Probability, and Introduction to Geometry, along with relevant problem-solving techniques and applications. The sessions incorporated concept-based instruction, regular practice exercises, and problem-solving activities to strengthen students' conceptual understanding and application skills. Practice-based questions and assessment activities were conducted to evaluate students' progress and familiarize them with examination-oriented problems. The training aimed to improve students' confidence, accuracy, speed, and overall readiness for competitive examinations, higher education opportunities, and campus recruitment processes.
